FOR IMMEDIATE RELEASE:

April 8, 2021 * Livermore, CA

Former Chief Technical Officer of CATL, Bob Galyen, joins Coulomb Solutions' Advisory Board

Coulomb Solutions Inc. (CSI) is honored to have the former Chief Technical Officer of CATL, Bob Galyen, join its Advisory Board. His positions as CTO of CATL (the world's largest battery manufacturer), Chairman of SAE International Battery Standards Steering Committee, SAE Fellow, Chairman Emeritus and CTO of NAATbatt International, will provide CSI invaluable technical expertise in advanced batteries and strong strategic guidance to continue to lead commercial vehicle electrification in North America.

CATL is one of the largest battery manufacturers in the world with over 50GWH of production capacity. Their batteries currently power over 1.2 million electric vehicles including over 300,000 trucks and buses which are in daily operation in demanding environments and terrain with some of the world's largest commercial fleets. The LFP battery systems selected are rated at up to 160 Wh/kg which matches today's NMC packs, while CATL's LFP battery packs are rated for an industry leading 4000 100% depth of discharge cycles at 1C or double the life of typical NMC packs. CSI will also be offering battery system solutions featuring CATL's new "million mile" chemistry with an industry leading 12,000 cycles starting in 2022 in North America.

Coulomb Solutions Inc. (CSI) is the North American Distributor and Solution Provider of CATL's Battery Packs for commercial electric vehicles. CSI has been quietly working with many North American OEMs for new EV product launches using CATL's long life LFP lithium battery systems. "We are very privileged to have such a renowned global leader and technical expert in batteries for transportation join our expanding Advisory Board," said David Mazaika, CSI CEO. "Bob Galyen is one of the true leaders in the development of advanced batteries for commercial vehicles."

About Coulomb Solutions Inc. (CSI)

CSI provides high quality, proven components to the North American commercial electric vehicle market at wholesale prices. The company's goal is to enable rapid adoption of electric drive systems in commercial trucks, buses, vans, locomotives and marine applications. As its cornerstone, CSI is the authorized North American distributor of commercial vehicle batteries for CATL, the largest Li-Ion battery designer and manufacturer in the world. CATL's batteries currently power over 270,000 buses and trucks in daily operation in demanding environments and terrain with some of the largest commercial fleets. CSI also has a line of highly proven accessory components for commercial electric vehicles including battery heating and cooling systems, electric air conditioning compressors, electric cab heaters, electric steering pumps, electric air compressors for braking, accessory inverters and onboard AC and fast DC Chargers. See how CSI is enabling commercial vehicle electrification on our web site at www.coulombsolutions.com
