

CSI Launch Press Release

Coulomb Solutions Inc. (CSI), was founded to provide high quality, proven components to the North American commercial electric vehicle market at wholesale prices which will enable rapid adoption of electric drive systems in the North American commercial vehicle sector. We believe our products will transform the US market from one dependent on subsidies to one of commercial viability. CSI is now the North American Distributor for CATL batteries, the largest producer of EV batteries in the world. We will be bringing their high quality EV batteries which have been proven in over 400,000 commercial vehicles, to the North American market. CSI also has a line of highly proven accessory components for commercial electric vehicles including battery cooling systems, electric steering pumps, electric air compressors, 600V accessory inverters, on-board AC chargers, fast DC chargers, DC-DC converters, and power distribution units. We are offering these components to truck and bus OEMs, Tier 1 suppliers, and electric vehicle system integrators.
